## 8.FAQ

Question : How about this lock? Is it perfect same as your advertisement?  
Is it safe with simple installation?

Answer:Provides a safe and convenient environment,3 minutes installation,  
no need to replace the door or the panel only change lock cylinder.

Question : After change the lock cylinder, if the rotary knob back of the  
door still can double lock?

Answer : Yes, there is no affection for the original lock's other function.

Question : Which kind of battery is more durable?

Answer : The lock need to be putted in 6pcsAAA battery, and it is better to  
use more high quality batteries.

Question : There is many different houses, if we install the lock cylinder  
in each house, could we open all the door by the same App account?

Answer : Yes, we could open all the lock with the same APP account,  
please remember to remark the different name for each lock.

Question: If there is no power on outside lock, how could we do?

Answer:1. There is the reserve system on back handle(You could open the  
lock from back handle by bluetooth, the battery life of back handle is double  
than front handle. ), you just need to open your mobile to open the door.  
2. Or you could replace the new batteries directly for the front handle  
outside of the door.
